

**Ryerson University's Office of the Vice President, Research and Innovation  
& The Fields Institute for Research in Mathematical Sciences  
invite you to attend an**

## **Expert Panel on Blockchain Technology**

Blockchain is likely to have a substantial impact on the future of the global economy and is already changing money, business and the world. Through cryptographic security, it allows for companies and individuals to collaborate with an unprecedented degree of trust and transparency. Beyond bitcoins, it can be applied to everything from healthcare records and online voting to insurance claims and royalty payments. This opportunity will aid in finding synergies for future R&D collaborations, expertise, and programs.

**Please join us for breakfast on  
Tuesday, March 21, 2017 from 8:45am – 11:00am**  
at Ryerson's Thomas Lounge, located in Oakham House,  
55 Gould St, Toronto, ON M5B 1E9

to hear from experts in this area discussing relevant issues and opportunities around blockchain research and development and for an opportunity to network with other R&D professionals in the field.

Please note that although this is a **FREE** event, registration is required due to a limited number of places available.

[Click here to RSVP](#) by Wednesday, March 10th, 2017 or until spaces available.
